2) What truly impressed us after downloading The Devotion System PDF book by Amy North was that it focused on loving one's self first. So, few relationships books and seduction programs talk about this.

There's so much focus on techniques and methods that no one really addresses the fact that you need to fill the void within yourself with love rather than with another man.

A man will NOT complete you. You must complete you.

When you love and accept yourself, you'll be emotionally and mentally healthy. Your relationships will be better, and you'll have no problems attracting and keeping a man.

3) The second and third part of The Devotion System PDF book focuses on giving a man a reason to want you.

There are countless stories of men who go to countries where women are poorer and try to marry and 'save' these women.

This is rooted in a man's inner desire to feel needed and want to look after a woman. This is a result of evolution.

These days, however, women are fiercely independent.

With the demand for 'equality' and feminists trying to make it look like women are better than men, many men feel worthless now and view the woman as a threat rather than someone to approach and woo.

When you download The Devotion System (PDF), Amy North's program will show you how to appeal to a man's inner desire to protect and look after you, without you appearing weak or giving up your independence.

As you can imagine, this is a fantastic way to attract a quality man, keep him, and even make him obsess over you.

4) You can try The Devotion System PDF program for 60 days after the download. There's no risk for you.

5) Besides The Devotion System PDF book, you will also download a 13-part video series that makes everything easier to understand. Some people dislike reading. The videos will be more appealing here.

6) Other than showing you how to attract a man, Amy North's program also explains why some men may pull away despite your best efforts.

Knowing this will help you to avoid this issue.

7) The Devotion System by Amy North (PDF) comes with 3 bonuses that makes the entire package worth downloading:

- Cheat-proofingYourRelationship
- FindingLoveOnline
- TextualChemistry

Some women may feel like the whole 'damsel in distress' approach is demeaning and manipulative.

This is understandable, but if you wish to make a man feel protective of you and want to be with you, you'll need to do what attracts him rather than expect things to be all black and white. Human beings have complex needs that are shades of gray. That's just how it is.

Amy North is a fantastic author and a relationship expert. Her advice and guidance on loving yourself is enough to help most women find true love.

Once women realize that the world is a better place because they're in it, they'll have confidence and self-worth. They'll truly know how to attract a man they deserve, and not pine and hope for any ol' guy to choose them. The Devotion System by Amy North is eye-opening and something that every woman should read and use. It gets 5 stars from us.
